About

A highly motivated and experienced Automation tester who is currently working as QA Engineer Team lead with more than 1.5 years of experience in Manual & Automation Testing. He is confident that his skills and experience align with the requirements of the position and believe that he would be a valuable addition to your team. He is familiar with Cross-Browser Testing, Test Automation Tools, and Mobile Testing.

Work Experience

QA Engineer Manual & Automation
Caparizon pvt ltd | Kochi   *MAY 2022- Currrently*

In his current role at Caparizon, He has gained experience in test case creation, Regression testing, System testing, and automation testing in Java and other web Applications, which would be beneficial for this role. Additionally, Gokul has experience working with frameworks such as Selenium, Cucumber, and Webdriver.io and also has completed an Automation Testing Course from Atees industrial training center Thrissur. He has worked with the Panasonic team from North America for the E2E- Automation Test-case implementation for their project. He is also familiar with ERP testing. Currently, Gokul is working as the QA Automation and manual Engineer for all major projects and also has knowledge in Languages such as Typescript, PHP, Html, Javascript and Software Agile Methodologies, Development Life Cycle (SDLC), Test Reporting, Test Planning, and Strategy, Kafka, RestAPI, Kibana, Defect Tracking and Management and various Test Automation Frameworks. Currently learning tools like J-meter and Postman.
